POSTAL PARCELS

EXPLANATORY NOTES

1. "Ww" - means that no dimension of a postal parcel may exceed 1.5 meters, and the sum of length and the largest circumference measured in a different direction than length - 3 meters.
2. "Ww" - means that no dimension of a postal parcel may exceed 1.05 meters, and the sum of length and the largest circumference measured in a different direction than length - 2 meters.
3. "Ex" - means that express postal parcels are accepted.
4. Column 2 refers to both economy and priority postal parcels, unless different dimensions are stated in the column for economy postal parcels and different for priority postal parcels.
5. Value is stated in conventional currency SDR (DTS).
6. The estimated delivery times for priority postal parcels take into account processing time and customs clearance in the territory of Poland, duration of transport and delivery standards adopted in the country of destination (based on the Compendium of Delivery Standards of the Universal Postal Union), expressed in D + n, where D is the date of sending of a priority postal parcel before the time limit, i.e. by 15.00 hours nationwide, and n - is the number of working days between the date of sending and delivery. Blank column 7 indicates that there is no data on delivery standards of priority postal parcels in the given country or territory.
